

2023 Annual Program Member Meetings & Events

Annually, members of ASSA meet with key senior US Navy personnel involved in the shipbuilding acquisition process through membership meetings, off-site events and the Annual Congressional DC Fly-in. During these meetings, members meet face-to-face with officials from the US Navy and members of Congress to discuss issues affecting the shipbuilding industry. Roundtable discussions are held to address strategic concerns. Members are invited to register to attend and sponsor. Notice will be sent prior to each meeting. The Board will make determinations as to when meetings can be held in person. In the meantime, when we cannot meet in person, we will hold virtual meetings via Zoom and time schedules will be adjusted as appropriate. All meetings are held in the EST time zone. [All meetings and times are subject to change.](#)
